

Established in 2005, **PICASSO MGI** is a 6-member live cover band. The team utilizes a wide range of instruments and its members are educated and talented musicians for whom work is a passion.

SHOW AND FUN ON STAGE – without desktops, with energy and spontaneity, which we share with all your guests! The visual side of the show is as important to them as the music. There are several sets of costumes in which Picasso MGI appears on stage, all prepared by a professional stylist. Their wardrobe is constantly expanding and getting more attractive.

The group consists of 4 VOICES, drums, bass, keyboards, guitars, violin and saxophones. This arsenal of musical instruments gives them a powerful, dynamic and diverse sound. Digital percussion allows them to accommodate for any venue – from small events for less than 40 people to big parties for over 500 guests!

They PROVIDE all the technology to handle their events: high-end sound system with a standard power 4.2 kW (they use only high quality hardware: Mackie, RCF, Allen & Heat, DBX, etc.) allows us to achieve perfect sound in all conditions and in several locations at once.

PROFESSIONAL LIGHTING: They can use up to 8 moving headlights that include: LED, PAR spotlights, fog generators, etc. The "Light show" they present will make your guests properly appreciate the importance of events in which they participate. Stage lighting and the (optional) lighting decoration is carried out using a set of lighting

based on the "heads" ROBE Club Spot and LED headlights, gobo projectors, etc. At the round, sparkling screen they can display any graphics, for example: initials or logos. The fully controllable and customizable system means that imagination is the only limit.

A varied program includes approx. 100 songs and is divided into thematic blocks, drawing on homogeneous music styles: disco hits '70, Rock & Roll classics, ABBA Covers, Golden hits of

Polish Big Bit, or taken from the Tatra highlander folklore set - this program has been tested on dozens of events. The length of the blocks (normally approx. 30 - 40 minutes) is tailored to the expectations and standards of the event and guests.

They will guide YOUR EVENT: If you do not plan to employ a compere that's no problem – they have plenty of experience in this role and on many occasions have filled this position not only as part of the banquet and dance but also for more official events: presentation of awards and conferences. They will select the appropriate presentations, musical accents and lighting to build a special mood and make sure YOUR EVENT is exceptional!

PICASSO MGI consistently receives excellent reviews among their customers - private and corporate alike. They have had the joy and honor to participate in a number of great events. Their clientele has included but is not limited to:
